Attitude Adjustment

Epicurious · 1 servings

INGREDIENTS

- 15 ml Simple syrup — 1:1
- 8 ml Green chartreuse
- 20 ml Lime juice
- 45 ml Matusalem clasico rum
- Miller high life to bottom — and as a side sipper
- Lime wheel — to garnish

5. Taste again. Does it feel a little too hot and boozy right now? That's okay! It's going to mingle with the beer, which will stretch out the dilution.
6. Strain into the prepared Collins glass.
7. Serve the beer remaining in the pony bottle alongside the cocktail.
8. Garnish with the lime wheel.

6. Place on your counter or in another spot that is 75° to 30°C.

7. Check the vinegar in a month, when you should have nice acidity. However, it may take another month or two to fully develop, especially if your environment is cooler.
8. Bottle the finished vinegar, saving the mother for another batch or sharing with a friend. Use immediately, or age to allow it to mellow and flavors to develop.
