Basically Black Bean Soup

Bon Appetit · 8 servings · vegetarian · gluten-free

INGREDIENTS

· 1 medium Onion
· 1 medium Carrot
· 3 Garlic cloves
· 60 ml Extra-virgin olive oil
· 60 ml Red wine vinegar
· 1 7 -oz. tin chipotle chiles in adobo — or 2 Tbsp. hot sauce
· 450 g . dried black beans — not soaked
· 8 ml Dried oregano
· 15 ml . kosher salt — plus more
· 3 Limes
· 240 ml Whole-milk greek yogurt
· Cilantro — sliced avocado, crushed Fritos, finely chopped onion, lime wedges, and/or hot sauce (for serving; optional)

METHOD

1. Start by doing a little prep work. Peel and chop 1 onion and 1 carrot.
2. Peel 3 garlic cloves by smashing each firmly with the flat side of a knife to break into smaller pieces. Discard skins. The cool thing about prepping garlic for any kind of long-cooking preparation like this is that it will have plenty of time to break down...
3. Heat ¼ cup oil in a large stock pot or Dutch oven over medium. Add onion, carrot, and garlic. Cook, stirring occasionally, until onion is golden, 5–7 minutes. Don't worry if the veggies start sticking to the bottom of the pan a little bit—that's a good thin...
4. Add ¼ cup red wine vinegar and cook, scraping up any brown bits from the bottom of the pot, until vinegar is reduced by about half.
5. Add 2 Tbsp. adobo sauce from can of chiles and stir to coat. (Feel free to add more adobo sauce if you're craving more heat and smokiness; just remember: You can always add more later, but you can't take any away.)
6. Add 1 lb. dried black beans, 1½ tsp. oregano, 1 Tbsp. salt, and 8 cups water. That's right: no boxed stock! The beans are going to create their own delicious broth as they simmer away. Bring up to a boil over high heat, then drop the heat down low so that t...
7. Simmer, stirring every 30 minutes to prevent sticking, until beans are tender and creamy, 1½–2 hours. How long it takes will depend entirely on how fresh your beans are—the longer they've been sitting on the shelf, the longer they're going to take to cook. ...
8. Meanwhile, assemble your garnishes. They're going to be the difference between an extremely simple—and delicious!—pot of black bean soup and something that feels fun and kind of fancy. The first thing we're going to make is a kind of creamy lime-yogurt to d...
9. Season yogurt mixture with salt. Give it a taste and add another pinch of salt if it doesn't pop. Easy, and kind of fancy, non? Cut remaining 2 limes into wedges for squeezing over the soup.
10. Prepare any other (optional) garnishes you may like. Slice some ripe avocado. Put some Fritos or tortilla chips or corn nuts in a bowl. Pick some cilantro leaves. Chop some onion, or thinly slice some scallions. Shred some cabbage. If you ask us, the more g...
11. Taste and season soup with salt, if needed. Remember: Beans can handle quite a bit of salt, so don't be afraid to add more if it tastes kind of "meh." You can serve right away, but we usually like to let a bean soup like this hang out for at least a half ho...
12. Do Ahead: Soup, without garnishes, can be made 1 week ahead; store in an airtight container and chill, or freeze up to 3 months.

· 1 ml Garlic powder
· 2.5 ml Freshly ground black pepper
· 1.1 L Water — plus more as needed
· 480 ml Frozen yellow corn — thawed
· 360 ml Frozen lima beans — thawed
· 240 ml Frozen cut okra
· 1 Red bell pepper — seeded, diced
· 480 ml Cubed russet potatoes — 1/2-inch cubes
· 7 ml Brown sugar
· 5 ml Worcestershire sauce
· Cayenne pepper to taste
· 15 ml Apple cider vinegar
· 120 ml Sliced green onions

METHOD

1. Gather your ingredients.
2. Add sliced bacon to a dry soup pot and cook on medium-high until browned and almost fully rendered.
3. After bacon is about halfway cooked, move it to the outside of the pot and set pork chop into the middle of the pot. Cook on each side until lightly browned, about 2 minutes each.
4. Remove pork chop and add chicken thighs, skin side down, and also brown on each side. Browning is optional but it will add more flavor.
5. Remove chicken. Once the bacon has cooked, add onions and salt. Cook and stir until onions are soft and translucent, about 5 minutes. If the pot is getting too hot, lower heat to medium. Add garlic and cook until fragrant, 30 seconds to 1 minute.
6. Add diced tomatoes, and stir to deglaze the bottom. Increase heat to high, bring to a simmer, and stir in garlic powder and black pepper.

9. Add corn, lima beans, okra, red pepper, and potatoes, and stir to combine. Taste and add more salt if necessary.
10. Stir in brown sugar, Worcestershire sauce, and cayenne pepper. Let the pot come back to a simmer (you can raise heat to do this faster, but reduce back to medium-low to maintain a simmer).
11. Simmer until potatoes are tender, and everything is cooked to your liking, about 30 minutes more. Add water or chicken broth to the pot if it seems like things are getting too thick, but this is a stew, and should be fairly thick
12. Once done, stir in vinegar. Taste and adjust salt, if needed.
13. Serve with green onions and enjoy!

Epicurious · 8 servings · vegetarian · vegan

INGREDIENTS

- 1.9 L /2 l easy vegetable stock or low-sodium vegetable broth
- 6 Ears fresh sweet corn
- 45 ml Olive oil
- 2 large Yellow onions — medium dice
- 4 large Stalks celery — thinly sliced
- 30 ml Fresh thyme — chopped
- 700 g /680 g yellow potatoes (such as yukon gold) — medium dice
- Salt
- 2.5 ml Paprika
- Freshly ground black pepper
- Big pinch of cayenne pepper
- Big pinch of ground coriander
- 360 ml /360 ml plain — unsweetened soymilk
- 120 ml /15 g cup packed chopped fresh flat-leaf parsley
- 1 Red bell pepper for garnishing

4. Meanwhile, when the cooked cobs are cool enough to handle, take a sturdy knife and scrape down the sides of the cobs to collect the remainder of the kernels. This should yield about 1 cup/150 g of kernel bits.
5. After the soup has cooked for 25 minutes, stir in the soymilk, corn kernels, and corn kernel bits. Simmer for 3 minutes. Remove 1 qt/960 ml of the soup and puree it in a blender or food processor until it's very smooth. Return the puree to the soup pot, and...

Vegan Butternut Squash Soup

Bon Appetit · 4 servings · vegetarian · vegan

INGREDIENTS

- 1 large Onion
- 3 Garlic cloves
- 1 2 " piece ginger
- A small handful of cilantro — with stems
- 1 large Butternut squash — 3 0.5–4 lb.
- 1 13.5 -oz. can unsweetened coconut milk — divided
- 30 ml . extra-virgin olive oil
- 1 ml Crushed red pepper flakes
- 15 ml . kosher salt — plus more
- 120 ml Unsweetened coconut flakes
- 2 Limes

METHOD

1. Preheat oven to 300°. Trim the ends off of 1 onion. Cut in half through root end, peel and discard skin, then coarsely chop. (No need to sweat the knife work here—it's all going to get blended anyway.) Transfer chopped onion to a medium bowl.
2. Using the flat side of chef's knife, smash 3 garlic cloves. Peel and discard skins, then coarsely chop. Transfer to the bowl with the chopped onion.
3. Using a spoon, peel 2" piece ginger. (We always like to use a spoon to peel ginger, which is way better for navigating all of those nooks and crannies than a vegetable peeler.) Thinly slice and add to bowl with onion and garlic.
4. Trim a handful of cilantro leaves with tender stems; set aside for serving. Coarsely chop remaining stems and transfer about ¼ cup chopped stems to bowl with onion. Clear your cutting board.
5. It's time to break down your squash! (We promise it's not as scary as it sounds.) Trim off both ends of 1 butternut squash, then cut through where the neck meets the bulb. (This makes it easier to peel.) Peel both pieces of squash with a vegetable peeler. C...

7. Heat 2 Tbsp. oil in a large Dutch oven or saucepan over medium. Add onion mixture, ¼ tsp. red pepper flakes, and 1 tsp. salt and cook, stirring occasionally with a wooden spoon, until onion is translucent and soft, 5–7 minutes.
8. Add squash and give everything a stir to coat. Add 3 cups water, or enough to just submerge the squash, remaining coconut milk in can, and 2 tsp. salt, then stir to combine. Raise heat to high and bring soup to a boil.
9. Once soup is boiling, reduce heat to medium-low and simmer, stirring occasionally, until the vegetables are very tender, 12–14 minutes.
10. Meanwhile, prepare your garnishes. Spread ½ cup coconut flakes on a rimmed baking sheet. Toast in oven until golden brown, about 5 minutes. (If you can't find big coconut flakes, shredded is okay, too, but it will probably take less time to toast. Just make...
11. You're almost ready to blend—so let's do this! First things first: set up your workstation. You'll need your pot of soup, blender, a large bowl, a ladle, and a clean kitchen towel all within arm's reach. Using ladle, fill blender pitcher no more than halfwa...
12. Holding the lid down with a folded kitchen towel, carefully blend soup, starting from the lowest speed and working your way up to high, until smooth and silky, 10–15 seconds. Transfer to a large bowl. Repeat, working in batches, until all soup is blended.
13. Wipe out Dutch oven and return to stove. Pour soup back into pot and heat over medium, stirring occasionally, until you can see steam rising from the pot. (You may be tempted to serve the soup straight from the blender, but it loses a lot of heat in the ble...
14. Ladle soup into bowls. Top with a swirl of reserved coconut milk, toasted coconut flakes, and cilantro. Serve with reserved lime wedges.
15. Do Ahead: Soup and toppings can be made 4 days ahead. Store in separate airtight containers and chill.
